PROFILE SUMMARY

Developer skilled in Java, JavaScript, Python, React.js, and REST APIs with experience building scalable web applications and AI-based systems. Oracle Certified Java Foundations Associate with strong problem-solving, debugging, and backend development skills.

EDUCATION

Galgotias University, Greater Noida <i>B.Tech CSE - AI & ML</i>	2021 – 2025 CGPA: 7.6
DAV Centenary Public School, New Delhi <i>Class XII</i>	2021 85.2%

EXPERIENCE

Codules Technologies <i>Java Developer Intern</i>	2024 Remote
• Worked on Java development tasks and delivered projects within deadlines. • Improved debugging, logic-building, and backend development skills.	

PROJECTS

SHL Conversational Assessment Recommender <i>Python, FastAPI, FAISS, Sentence Transformers, Groq API, Docker</i>	2026
• Built a conversational AI recommendation system using RAG and semantic retrieval. • Implemented FAISS-based search over SHL assessment embeddings. • Developed grounded multi-turn recommendation workflows and deployed API publicly. • Live API Deployment	
Facial Emotion Recognition System <i>Python, OpenCV, Keras</i>	2024
• Built a CNN-based model achieving 92% accuracy for emotion detection. • Enabled real-time facial emotion recognition using live video feed.	

TECHNICAL SKILLS

Languages: Java, JavaScript, Python
Frontend: HTML5, CSS3, React.js, Tailwind CSS
Backend: FastAPI, Node.js, REST APIs, WebSockets
AI/ML: RAG, FAISS, Sentence Transformers, Semantic Search, OpenCV, Keras
Database: MongoDB, SQL Server
Tools: Git, GitHub, VS Code, Postman, Docker, HuggingFace Spaces
Core Concepts: OOP, DBMS, Asynchronous Programming, API Development
Soft Skills: Teamwork, Leadership, Communication, Adaptability

CERTIFICATIONS

Oracle Certified Foundations Associate – Java • Google Data Analytics • Deloitte Data Analytics Simulation • JP Morgan Software Engineering Simulation • Cisco Introduction to Data Science

ADDITIONAL INFORMATION

Hobbies: Football, Reading, Travelling, Video Editing
Languages: English, Hindi
